

Tarbert Dental Surgery

Policy on Paying for Treatment

Following your initial consultation or examination appointment we will provide you with a treatment plan. This details the treatment required and an estimate of what the treatment will cost. In some cases further investigation may be required before a treatment plan can be provided. Where there is likely to be a cost for further investigation, we will ensure that you are aware of this prior to the investigation being carried out.

If, during a course of treatment, the treatment plan changes we will notify you and provide you with an updated treatment plan.

We try to make payment as straightforward as possible. You may pay by, cash or credit/debit card.

Our policy is that you will be required to pay, on the day, for the treatment received that day. Where your treatment involves laboratory work, you will be required to pay the appropriate fee prior to fitting.

We will not be able to offer further appointments until previous appointments are paid in full.

We reserve the right to request payment in advance for treatment in certain circumstances.
